**Pre Wax Skin  
Cleanser 250ml**  
62Q98

A hygienic cooling solution for cleaning the skin prior to waxing. It gently removes any traces of make-up, deodorant, cream and body oil. Peppermint oil provides a refreshing cool feeling and acts as a soothing agent.

**Quick Dry Wax  
Mist 250ml**  
62Q81

Formulated to instantly touch-dry hard wax. Allows you to speed through your waxing treatments, without the frustration of waiting for hard wax to dry or getting sticky hands or gloves. Great for humid conditions!

**After Waxing Oil &  
Moisturiser 250ml**  
62Q84

Uses Tea Tree Oil to remove wax residue as well as soothe & condition the skin. Unlike paraffin or vegetable based oils, this formula absorbs easily into the skin, leaving a non-greasy feel.

**Wax Remover Citrus  
Clean 250ml**  
62Q76

A concentrated product with a pleasant citrus fragrance that is excellent for cleaning wax pots, utensils and equipment. This economical cleaning solution removes wax residue quickly and easily.

## 'HAIRBUYS'

### Your HH&B Loyalty Reward Accumulation Program

HHB believes you deserve more from your wholesaler, so we have introduced...

**HAIRBUYS!** Reward credits for your purchasing loyalty. Just spend within a reward band one month and collect the next.

*It couldn't be simpler!\**

Just add up the total value of all the HHB invoices you have received during a nominated month and you will receive an HHB credit against any eligible product listed in the Sundries & Accessories Section of this Catalogue to the value nominated in the reward band for your total. See the chart right for your reward.

#### CONDITIONS APPLY

\* HAIRBUYS discounts earned on purchasing hair and beauty products must be credited against Sundries & Accessories only.

\* HAIRBUYS discounts do not apply to salon equipment sales.

## OPI Powder Perfection Application

1 Prep the nails, apply one coat of OPI Powder Perfection Base Coat to a single nail making sure to cover the entire surface.

2 Immediately dip the same nail at a 45 DEGREE angle into Colour Powder. Tap off excess powder. Repeat on the other four nails. Complete one nail at a time in order to prevent the Base Coat drying too quickly.

3 Once complete with the entire hand, tap off excess powder. When dry to the touch, use a brush to wipe off any remaining loose powder. Apply a second layer of Base Coat and Colour Powder. Wipe any remaining loose powder.

4 Apply one coat of Base Coat to each nail. Before the Base Coat dries, dip each nail at a 45 degree angle into Color Set Powder. Tap off excess powder. When dry to the touch, use brush to wipe off any remaining loose powder.

5 Apply one coat of OPI Activator to all five nails, ensure to cover the entire nail. Allow to dry completely. While drying, complete Steps 1-4 on the other hand.

6 On the first hand ensure the Activator is completely dry. Contour the surface gently with a 180 file. Buff with a 100/180 buffer. Smooth using a 220/280 buffer. Buff gently to avoid filing the Colour Powder layers. Brush off excess powder and dust.

7 Apply one coat of OPI Activator on all five nails of the same hand. Allow to dry completely.

8 To complete the application, apply a second coat of Top Coat to each nail. Allow 1-2 minutes to dry.

# blinc

cosmetics

blinc mascara forms tiny, water resistant "tubes" around your lashes rather than painting them like regular mascaras. The tubes bind to your lashes and cannot run, smudge, clump or flake, even if you cry or rub your eyes. Only when you are ready for removal, the tubes will effortlessly slide off your lashes into your hands without the use of harsh make up remover.
